

# POWERFUL PERSPECTIVES FOR **PRIVATE EQUITY**

**Harper Pearson leverages a wide range of technical, operational and regulatory knowledge to aid private equity firms and help professionals position themselves for success.**

Our private equity clients benefit from access to a vast pool of resources and connections worldwide. Combined with deep industry knowledge, these assets allow the team at Harper Pearson to better prepare clients when it comes to their financial position at any stage of business.

# HELPING FIRMS GAIN **THE UPPER HAND**

Whether you're dealing with buyouts, growth equity, venture capital or any special situation, our seasoned professionals have experience in providing guidance and perspective to help your business capitalize on opportunities.

## | NAVIGATE **TAX LAWS**

When it comes to private equity, it's important to not only understand the vast landscape of tax law, but to be mindful of how minor variables may impact your filing. We keep a sharp eye on how things like the stake in your portfolio companies may affect your financial reporting.

## | STRATEGIC **CONSULTING**

Informed perspectives lead to invaluable insights. At Harper Pearson, we have a keen understanding of even the more nuanced undertones of any given financial situation. Our team of professionals can offer best practices on things like fund expenses, distributions and operating expenses related to your firm.

## | OUTSOURCED **ACCOUNTING**

Whether you're looking for a one-time engagement or a one-stop-shop, Harper Pearson offers valuable outsourced accounting options for private equity firms. From financial reporting to portfolio company agreements, we offer solutions to help free up your team for bigger opportunities.
